## Subject: Product Catalog Update

From 1999-2004, Ford F-450's and F-550's used the D777 pads (Formula Blue part number E11107770). These pads fit the E14670049 and E14670048 calipers.

Beginning in 2005, Ford F-450's and F-550's began using the D1066 pad configuration (Formula Blue part number E1110660). These pads fit the E14670076 and E14670077 calipers.

Page 54-57 in the Formula Blue Catalog Supplement (BW7348-SUP) incorrectly lists the E11107770 pads for the Ford F-450 and F-550 (copies of these incorrect pages are shown below for your reference).

The CORRECT pad part number that should be used with the E14670077 and E14670076 calipers is E1110660.

It should be noted that the Formula Blue catalog (BW7348) correctly lists this information through the 2006 model year. The error was only made in the catalog supplement (BW7348-SUP).

All other information for the Ford F450 & F550 applications are correct.
